25X1

Between 1000 and 1400 on 17 July 1955, 2 MiG-15s, 1 IL-28 and 3 Li-2s were observed at Bad Voetslau airfield. There was a 2/10 overcast, sunny weather, a westerly wind of about 3 km/h, and good visibility. No air activity was conducted, nor was other activity observed, except that about 50 Soviet soldiers armed with submachine guns patrolled the area between Baden and Bad Voetslau in groups of two men. The purpose of this activity could not be determined.

Comment. The occupation of Bad Voetslau airfield has apparently not changed since May and June 1955.
